18.03.02	Patient's Story	<p>Alyn advised that a letter was received in January about the experience a patient had while attending the colposcopy department at the Hospital. The patient outlines how impressed she was from her first appointment to the department. The patient advised that everyone she encountered during her time attending the department and the Hospital have been professional, courteous, friendly and empathetic.</p> <p>Alyn advised the board in respect of a child with a chronic illness who presented with their mother in order to have bloods taken in the Children's outpatient department. Though the child's primary treatment centre is in a neighbouring hospital an arrangement was put in place whereby the child could have their bloods taken at TUH. The mother of the child advised of her dissatisfaction in respect of an encounter with a Nurse in the OPD and felt very upset as a result. The learnings from this matter are recognised and implemented by the Hospital.</p>

The committee will formally meet the external Auditors on 26th April 2018 to identify any issues of note. The AFS for 2017 will be circulated to the Hospital Board before its next meeting in May.</p> <p>PB reiterated that each individual Board member has a legal obligation to review and understand the Annual Financial Statements and if there are any items which need to be clarified to ask the questions.</p> <p>PB advised the Board that the Hospital trading as a Going Concern will be a matter for discussion with the external Auditors.</p>
